In the industrial list Copper gradually hardened nearly a point, but many issues were neglected. The local traction group was irregular. ### LIQUIDATION CAUSES BREAK IN JULY COTTON

NEW YORK, June 18 .- The local coton market opened strong and active, being stimulated by better cables from Liverpool and by rumors that certain Wall Street interests had become partial to the bull side. After the call July showed surprising weakness and fell to 11 cents. But August held better in the face of offerings by traders identified with New Orleans interests. The decline in July was attributed to liquidation by outsiders through commission houses.

They will be placed on continuations of the present lines of Welsbach incandescent lamps, and will go to the Northwest and Northeast sections of the city.

The new contract for the lamps provides that they shall cost only \$21 each per year, whereas, during the past year, they cost \$22.60 each. In the Northwest 272 new lamps will be placed, and the Northeast section will get ninety-one. Northeast section will get ninety-one.
Commissioner Macrariand, who is deeply interested in extending the Welshach system through all the streets of the city, said today he thought that within the next two years these lamps will be put on all the thoroughfares.
